Who We Are

SigmaSpec Electromechanical Ltd is a relatively young company, constituted of highly energetic engineers and experts in the mechanical, electrical and communications fields.

The company gathers international experts as its basis of management and quality control teams with a deep understanding of the Nigerian market for more than 15 years.

Our Mission

Our mission is to make apparent our deep understanding of the Mechanical, Electrical and Plumbing (MEP) industry in service of better value engineering while maintaining safety norms, quality assurance and delivery on time.

We are committed

- ✔ Providing long-term commitment and support to our clients.
- ✔ Remaining at the cutting edge of manufacturing (fabrication and machining) services and combining this knowledge with the highest standards of engineering practice.
- ✔ Achieving the highest level of innovation, skill and competence in our field.

Our Philosophy

- ✔ Compromising quality is never an option.
- ✔ Delivery on time is always a priority.

Fouad Samara
Managing Director,
SigmaSpec Electromechanical Ltd

We Are Integrators

Our strengths & skills in electromechanics, low, medium and high voltage electrical systems, extra-low voltage systems, automation, building management systems, CCTV, fire detecting and project management allow us to deliver complete solutions to complex problems.

Our clients tell us that one of the best things about working with us is that we are able to adapt to the business needs and information flow of the companies we work for, meaning we can offer value and services at any point in the electromechanical engineering process.

SigmaSpec ElectroMechanical Ltd is an established company constituted of highly experienced expatriate and Nigerian engineers and supervisors who have been in the Nigerian market since 2007.

Today the company operates as a complete professional construction MEP service provider for many high luxury residential and commercial buildings in Lagos and other states.

Our Strengths

- ◆ Location of business.
- ◆ Quality processes and procedures.
- ◆ Diverse profitable services.
- ◆ Solid leadership.
- ◆ Investment in human capital and technical skills.
- ◆ Direct access to and timely delivery of parts, materials and equipment.

Our Goals

- ◆ **Maintain solid financial growth**
 - Increase gross revenue.
 - Increase asset utilization.
 - Improve cost structure.
- ◆ **Increase product competitiveness**
 - Work closely with clients to understand industry demands.
 - Continue improving design, drafting, production and delivery processes to maintain competitive pricing of products and services.
 - Integrate Finite Element Analysis computer program with current Inventor package.
 - Extend workshop and machining capabilities.
- ◆ **Promote Excellence**
 - Strengthen client loyalty and brand image.
 - Continue to invest in information capital – systems, networks and databases.
 - Increase employee satisfaction.

We provide A-Z services for all types of buildings while adhering to internationally recognized standards. We ensure that our clients are completely satisfied with the results from the beginning to the end of the process.

Management Services

- ◆ Project Management and Planning
- ◆ Project Quality Control and Assurance
- ◆ Shop Drawings

Technical Services

- ◆ Low Voltage/Medium Voltage/High Voltage Electrical Systems
- ◆ ELV (Extra Low Voltage) Systems including Automation, BMS (Building Management Systems), CCTV and Fire-detection etc.
- ◆ Heating, Ventilation and Air-Conditioning Units
- ◆ Firefighting Solutions
- ◆ Plumbing and Piping Systems
- ◆ Potable, Domestic and Waste Water Treatment Systems
- ◆ Alternative Energy Solutions (Solar, wind, etc.)
- ◆ Systems Balancing, Testing and Commissioning
- ◆ Maintenance and after sales service

Medical Field Services

- ◆ Medical + Medical Gas systems' distribution
- ◆ Bed Head Units
- ◆ Nurse Call Systems

Oil and Gas Services

- ◆ Laying and Fabrication of oil and gas piping
- ◆ Supply, install and maintain, turbines, HVAC system, electrical, plumbing and firefighting systems

SigmaSpec Electromechanical Ltd has provided multi-discipline engineering services to industrial clients since 2007. Our company fosters an innovative problem-solving environment that presents fast and flexible responses to client needs.

The highly qualified team at SigmaSpec can offer complete engineering services from the project feasibility phase through to detailed design and construction management.

People

At SigmaSpec we believe that the ultimate success of any project hinges primarily on the quality of the people involved. We have therefore made recruiting and retaining talented personnel a corporate priority. Our group of dedicated personnel are second to none.

Priorities

Since 2007, Sigma Electromechanical Ltd has been building long term relationships with customers through a commitment to on-time and on-budget delivery of services.

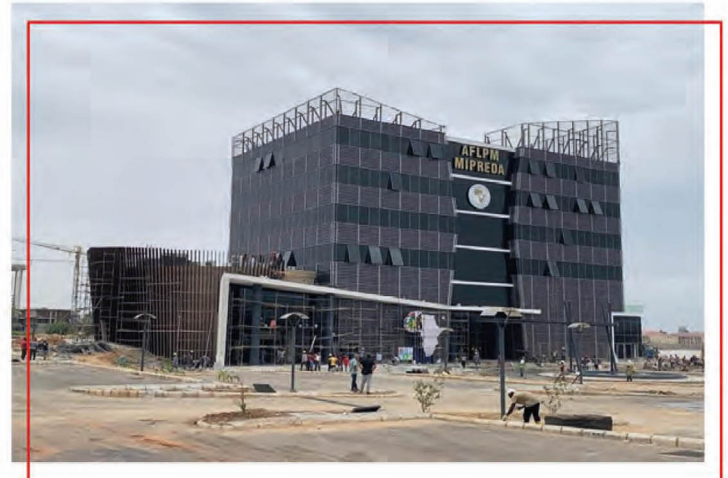

Most of our assignments are repeat business or come through referrals. We recognize that even though superior customer service is more than desirable, customer service alone cannot replace technical ability and experience in the engineering field. As such, investment in personnel training and professional development is another high priority.
